Aims and Scope: Optics Communications ensures the rapid publication of contributions in the field of optics and interaction of light with matter.

Abstracted/indexed in: Chemical Abstracts: Current Contents: Engineering, Computing and Technology; Current Contents: Physical, Chemical & Earth Sciences; EI Compendex Plus; Engineering Index; INSPEC.

Publication information: Optics Communications (ISSN 0030-4018). For 2004, volumes 229–242 scheduled for publication. Subscription prices are available upon request from the Publisher or from the Regional Sales Office nearest you or from this journal's website (http://www.elsevier.com/locate/optcom). Further information is available on this journal and other Elsevier products through Elsevier's website: (http://www.elsevier.com). Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe). Priority rates are available upon request. Claims for missing issues should be made within six months of the date of dispatch.

USA mailing notice: Optics Communications (ISSN 0030-4018) is published semi-monthly by Elsevier B.V. (P.O. Box 211, 1000 AE Amsterdam, The Netherlands). Annual subscription price in the USA US$ 6007 (valid in North, Central and South America), including air speed delivery. Periodical postage rate paid at Jamaica, NY 11431.

USA POSTMASTER: Send address changes to Optics Communications, Publications Expediting Inc., 200 Meacham Avenue, Elmont, NY 11003.
AIRFREIGHT AND MAILING in the USA by Publications Expediting Inc., 200 Meacham Avenue, Elmont, NY 11003.

⊘ The paper used in this publication meets the requirements of ANSI/NISO Z39.48-1992 (Permanence of Paper).

Author enquiries
Submissions
Manuscripts can be submitted online using the "Submit online to this journal" facility at the following website: http://www.authors.elsevier.com/journal/optcom. Alternatively, manuscripts (one original + two copies) should be sent to a member of the Editorial Board or preferably to an appropriate subject Associate Editor. For further information on submission procedures and the Editorial Board members, please refer to: http://www.authors.elsevier.com/journal/optcom. For detailed instructions on the preparation of electronic artwork, consult Elsevier's Author Gateway at http://authors.elsevier.com.

Other enquiries
Visit Elsevier's Author Gateway (http://authors.elsevier.com) for the facility to track accepted articles and set up e-mail alerts to inform you of when an article's status has changed. The Author Gateway also provides detailed artwork guidelines, copyright information, frequently asked questions and more. Contact details for questions arising after acceptance of an article, especially those relating to proofs, are provided after registration of an article for publication.

Authors in Japan please note: Upon request, Elsevier Japan will provide authors with a list of people who can check and improve the English of their paper (before submission). Please contact our Tokyo office: Elsevier K.K., 1-9-15 Higashi-Azabu, Minato-ku, Tokyo 106-0044. Tel.: (03) 5561-5032; fax: (03)5561-5045.

Advertising information:
Advertising orders and enquiries can be sent to:
USA, Canada and South America: Mr Tino de Carlo, The Advertising Department, Elsevier Inc., 360 Park Avenue South, New York, NY 10010-1710, USA; tel: +1 212 633 3815; fax: +1 212 633 3820; e-mail: t.decarlo@elsevier.com.
Japan: The Advertising Department, Elsevier K.K., 9-15 Higashi-Azabu, 1-chome, Minato-ku, Tokyo 106-0044, Japan; tel.: +81 3 5561 5033; fax: +81 3 5561 5047.
Europe and rest of the world: Commercial Sales Department, Elsevier Ltd., The Boulevard, Langford Lane, Kidlington, Oxford OX5 1B, UK; tel.: +44 1865 843016; fax: +44 1865 843976; e-mail: media@elsevier.com.

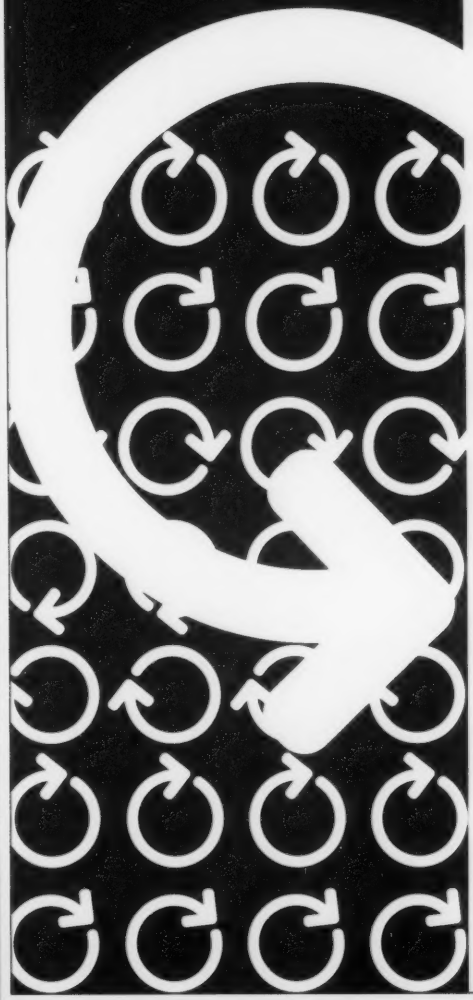
author GATEWAY
from Elsevier

Elsevier's online tool for authors, providing an integrated online entry point for all your submission needs.

Authors can submit papers to an Elsevier journal, track the progress of accepted papers through to the published article, as well as stay informed of new journal content and books from Elsevier.



- Find your journal — search by title, keyword or editor; browse by subject area or title.
- Submit your paper — access comprehensive instructions for authors, including online submission where this service is available.
- Track your paper — track the status of your paper from acceptance to publication.
- Set up alerts for your favourite journals — receive tables of contents by e-mail from ContentsDirect.
- Personalise your homepage — create your own unique homepage with quick links to your papers, journals and e-mail alerts.

Help us to produce your artwork to the highest possible standards – in both paper and digital formats

All articles accepted for publication in Elsevier journals are processed using electronic production methods. Submitting your illustrations, pictures, tables and other artwork (such as multimedia and supplementary files) in an electronic format helps us to produce your work to the best possible standards, ensuring accuracy, clarity and a high level of detail.

Visit the Author Artwork website for full information on how to submit your artwork correctly.

Full details can be found on all aspects of author artwork:

- Artwork files: file formats, file naming, fonts, acceptable media and sizing of artwork
- Multimedia files: movies/animations, imaging, audio files, application-specific files and archives
- Colour artwork: RGB/Greyscale artwork, RGB/CMYK artwork, monitor calibration and colour information
- Scanning: scanning of colour artwork, combination artwork, greyscale artwork and line artwork

Whether you are sending your artwork in electronic files or on disk, for best results please follow the guidelines and checklist.

Remember, an image that looks acceptable on a computer may not reproduce well in print or online, so it is important to ensure that these guidelines are referred to.

Instructions to Authors (short version)

(A more detailed version of these instructions is published in the preliminary pages of each volume.)

Online submission

Authors are encouraged to submit their papers through the Author Gateway online submission tool for Optics Communications. Full instructions on how to use the electronic submission tool and on how to prepare a compuscript are available at http://www.elsevier.com/locate/optcom

Submission of papers

Manuscripts (one original and three copies) should be sent to one of the Editors, whose addresses are given on the inside of the journal cover.

Original material. Submission of a manuscript implies that the paper is not under consideration by any other journal at the time of submission, and that the essential scientific results will not be submitted to any other journal while the paper is under consideration for publication in *Optics Communications*.

Refereeing. Submitted papers will be refereed and, if necessary, authors may be invited to revise their manuscript. Authors are encouraged to list the names (plus addresses, tel/fax numbers, and e-mail addresses) of up to four individuals outside their institution who are qualified to provide a technical report on the work. This list is especially welcome when the manuscript deals with specialized subjects.

Types of contributions

Optics Communications considers only original and timely contributions containing new results in various fields of modern optics. Manuscripts may discuss fundamental or applied issues, and should offer clear evidence of novelty and significance. Articles are not required to fit within a prescribed length, but it is understood that the length of a contribution should be commensurate with the information contained in the manuscript.

Manuscript preparation

All manuscripts should be written in good scientific English. The original copy should be printed on one side of the paper only; the additional copies may be printed on both sides, and pages should be numbered.

Structure. Please adhere to the following order of presentation: Article title, Author(s), Affiliation(s), Abstract, Classification codes (PACS) and keywords, Main text, Acknowledgements, Appendices, References, Figure captions, Tables.

Corresponding author. The name, complete postal address, telephone and fax numbers, and e-mail address of the corresponding author should be given on the first page of the manuscript.

PACS codes and/or keywords. Please supply classification codes (PACS) and/or keywords of your own choice for indexing purposes.

References. References to other work should be consecutively numbered in the text using square brackets and listed by number in the Reference list. Please refer to a recent issue of the journal or to the more detailed instructions for examples.

Figures

Figures should be original laser prints, or very sharp, high contrast prints on glossy paper, suitable for immediate reproduction. Half-tone figures should be in black-and-white, very sharp, well-contrasting and on glossy paper. Each figure should be identified on the back by its number and the name of the first author. Figures with multiple panels should be labeled individually, with (a), (b), etc., but a single caption should describe the entire set.

Color plates

If, together with your accepted article, you submit usable colour figures then Elsevier will ensure, at no additional charge, that these figures will appear in colour on the web (e.g., ScienceDirect and other sites) regardless of whether or not these illustrations are reproduced in colour in the printed version. For colour reproduction in print, you will receive information regarding the costs from Elsevier after receipt of your accepted article. For further information on the preparation of electronic artwork, please see http://www.elsevier.com/locate/authorartwork.

Please note: Because of technical complications which may arise by converting colour figures to (for the printed version, should you not opt for colour in print) please submit in addition usable black and white prints corresponding to all the colour illustrations.

Electronic files

The Publisher requires the receipt of an electronic version of the accepted manuscript. If the authors have not already provided the Editor with the final revised version of the article (on disk), they are urged to send a .le with the text of the accepted manuscript directly to the Publisher.

Copyright transfer

Upon acceptance of an article, the author(s) will be asked to transfer copyright of the article to the Publisher. This transfer will ensure the widest possible dissemination of information.

Proofs

One set of page proofs in PDF format will be sent to the corresponding author, to be checked for typesetting/editing. Authors should respond within 24 hours after receipt of their proofs.

Author benefits

No page charges. Publishing in Optics Communications is free.

Free offprints. The corresponding author will receive 25 offprints free of charge. An offprint order form will be supplied by the publisher for ordering any additional paid offprints.

CONTENTS-Alert. Optics Communications is included in this free Elsevier pre-publication contents alerting service (for information, please contact *C-ALERT.OPTICS@ELSEVIER.NL*).

Discount. Contributors to Elsevier journals are entitled to a 30% discount on all Elsevier books.

Author enquiries

For enquiries relating to the submission of articles (including electronic submission), the status of accepted articles through our Online Article Status Information System (OASIS), author Frequently Asked Questions and any other enquiries relating to Elsevier, please consult http://www.elsevier.com/locate/authors/

For specific enquiries on the preparation of electronic artwork, consult http://www.elsevier.com/locate/authorartwork/

Contact details for questions arising after acceptance of an article, especially those relating to proofs, are provided after registration of an article for publication.
